_____.

- **Read the passage. Then choose the correct answers.**

[20-23]

A long time ago, armies did not have guns. Soldiers fought with their bodies. They used their hands and feet. Sometimes they had weapons. Sometimes they did not.

Soldiers had to be very fast. They practiced moving their bodies. They invented fighting styles. These became martial arts.

Today, martial arts are still popular. They are great for exercise. They are good for your health. They also help people protect themselves.

20. Armies always had guns. ☐ Yes ☐ No

21. Soldiers had to be very fat. ☐ Yes ☐ No

22. They _____ a fighting style called martial arts.
    a. invented b. fell c. breathed

23. What is NOT true about martial arts?
    a. They are still popular.
    b. They are bad for your health.
    c. They are good for getting exercise.

[24-27]

Where does it rain the most in the world? Where does it rain the least in the world? How can you know?

You can't count every raindrop. You can use a rain gauge! A rain gauge catches rain. It measures rain, too.

Mawsynram is in India. It gets 11,873 millimeters (mm) of rain each year. Arica is in Chile. It only gets 0.76 mm. How much rain does your hometown get?

24. You can count every raindrop. ☐ Yes ☐ No

25. A rain gauge measures rain. ☐ Yes ☐ No

26. It rains the _____ in Mawsynram, India.
    a. least b. most c. become

27. How much rain does Arica get each year?
    a. It doesn't say.
    b. 0.76 mm per year
    c. over 11 thousand mm a year

[28-31]

People rode horses before cars were invented. Horses are fast. A horse and rider can go 45 kilometers (km) an hour.

But riding horses is difficult in cities. It is dangerous. And it can be messy.

In 1885, a man named Karl Benz made a car. It was the first gasoline-powered car. It went 16 km an hour. Soon, cars could go up to 80 km an hour. They were faster than horses.

28. People used to ride horses. ☐ Yes ☐ No

29. Horses are slow. ☐ Yes ☐ No

30. It is _____ to ride a horse in the city.
a. before b. difficult c. first

31. How fast did cars go after 1885?
a. 16 km/h b. 45 km/h c. 80 km/h
