Unit 1

1. toxic
2. little
3. Wood
4. grows
5. Stone
6. locally
7. transportation
8. insulated
9. electricity
10. toilets
11. Low-flow
12. dishwashers
13. Composting
14. landfills

Unit 2

CAUSES OF EVENTS

1. Tectonic plates
2. press
3. shrinks

EFFECTS OF EVENTS

4. Earthquakes
5. eruptions
6. Tsunamis
7. generated

Unit 3

apps

3. applications
5. software

based on something

1. something

social skills

4. skills

higher education

6. high
7. college
8. university

workforce

2. work

Unit 4

Title: Exposure

1. exposure therapist
2. virtual reality
3. Computer program
4. standing
5. steps
6. Patient
7. phobia

Unit 5

Problem

1. too many
2. productive
3. stress-related

Solution

4. Shorten
5. same amount
6. fewer

Result

7. more
8. illnesses
9. nature
10. processed
11. loyal

Unit 6

On Earth

● You can call a mechanic or a handyman when you have a problem around the house.
● Gravity naturally pulls blood and other body fluids away from the head.
● Exercise is encouraged but is not vital for walking.
● Dishes are washed after meals.

In Space

● Lives might be in danger when something on the station breaks.
● Exercise (at least two hours per day) is vital to your ability to walk when you come back to Earth.
● Only a soapy cloth is used to bathe.
● Toilets do not use water.

Unit 7

1. Empire
2. waisted
3. Tight
4. British
5. Loose

6. Hoop
7. Steel
8. corset
9. many
10. walk

Unit 8

Problems

● The trash is mostly microplastics, which are not visible.
● At least one million seabirds and hundreds of thousands of marine mammals die yearly due to the pollution.
● No one will pay to clean these gyres up because they are located too far from any one country.
● There are five major gyres in the world's oceans that are full of trash.
● There are smaller gyres that have garbage islands, too.

Solutions

● Someday, machines will float around gyres, collecting all of the trash for recycling and proper disposal.
● People must use biodegradable plastics that won't break down into microplastics.
● People must refuse to buy items packaged in plastic.
● People must remember to reduce, reuse, and recycle.

Unit 9

1. dying
2. negative
3. honeybees
4. crops
5. one third
6. Beef
7. pesticides
8. fungus

Unit 10

Mount Everest

tallest mountain above 2. <u>sea</u> level
a symbol of man's 3. <u>struggle</u> to achieve
also known as the 6. <u>Roof</u> of the World
a 7. <u>dangerous</u> and difficult mountain to climb

climbing routes

paths to the 1. <u>top</u> of a mountain

mountain range

a group of 5. <u>mountains</u>

surveyor

someone whose job is to measure or 6. <u>calculate</u> the height or details of an area of land

climber
someone who goes up mountains, hills, or rocks as a 8. sport

Unit 11
1. elderly
2. attention
3. practical
4. industry
5. transportation
6. urban
7. health care
8. businesses
9. finances

Unit 12
1. pressing noses together
2. a handshake / A bow
3. a bow / A handshake

These answers can be in any order:
4. moving away from the other person
5. stiff laughter
6. an awkward silence
7. a strange facial expression

Unit 13
Problem
1. self-expression / communication
2. heal
3. behavioral issues
4. communication / self-expression

Solution
5. Art
6. draw

Result
7. express
8. stress
9. depression
10. emotions

Unit 14
Parcours du combattant
1. warrior
2. military

Parkour
3. David Belle
4. possible
5. efficiently

Freerunning
6. Sébastien Foucan
7. gymnastics
8. graceful
9. expression
