

WRITING FRAMEWORK

Writing Framework for Sentence Writing Book 3 Teacher's Guide

Written by: Radu Hotinceanu

➤ **LESSON GOAL** Students will be able to describe food and write about their favorite food.

OVERVIEW

This unit introduces students to vocabulary and conversation patterns used for describing the composition, appearance, and taste of various types of food. In the warm-up section, students preview and practice vocabulary and answer questions related to the taste and texture of various foods. These patterns are reinforced through conversations in the form of text messages and exercises such as revision of model sentences and fill-in-the-blank questions and answers. In the pre-writing section, students learn how to use the verb *taste* and the verb phrase *taste like* in their intransitive forms. Students also practice finding antonyms for given adjectives and write sentences by completing unscrambling exercises. In the drafting section, students are asked to brainstorm ideas, provide key detail, and complete a descriptive paragraph about their favorite food. In the revising and proofreading section, students are asked to pay particular attention to punctuation and spelling errors, singular-plural agreement, and the use of vocabulary specific to food taste and ingredients used in foods.

TEACHING NOTES

This unit instructs students on how to talk about their favorite food but also introduces food in its cultural context, namely the country of origin. The teacher can use this unit to introduce/review country names and explain the food names used in their respective languages. For example, the teacher can explain the difference in meaning between *pasta* and *spaghetti* (all *spaghetti* is *pasta*, but not all *pasta* is *spaghetti*). Meanwhile, the teacher must make sure that students provide enough detail about food taste and ingredients used in their expository writing exercise.

For further support, you may use the workbook or online materials to produce quizzes on the grammar, vocabulary, or writing that is covered in this unit.

FIRST DRAFT (p. 15)

A. Now write about your favorite food.

When grading a written response, evaluate the following five important characteristics:

- Content – Does the written response stay focused on the topic?
- Organization – Is the written response organized, including a main idea, specific details, and conclusion, if needed?

- Spelling – Does the written response demonstrate correct spelling?
- Grammar – Does the written response adhere to grammar rules?
- Punctuation and Capitalization – Does the written response use correct punctuation and spelling?

As you evaluate each characteristic, consider the consistency and frequency of errors. A single error in verb form should not be penalized as heavily as consistent errors in the verb form. You may also wish to consider the degree to which these errors interfere with comprehension or increase reader effort.

In addition, take care to emphasize the specific grammar, spelling, and punctuation rules which have been taught in the current and previous units. For example, it is reasonable to expect the correct usage of capitalization, punctuation, and grammar rules that were covered in the unit or in previous units.

Writing Rubric

Use this rubric to guide your analysis of each written response.

There are three benchmark descriptors for each written response characteristic (Content, Organization, Spelling, Grammar, Punctuation and Capitalization). Determine which statement best describes the response in each category. For example, if the written response includes 6 spelling errors, the C-level descriptor is the best match. After evaluating all five characteristics individually, then assign an overall score based on the grade descriptor most frequently selected. For example, if you chose three B-grade descriptors and two C-grade descriptors, you will most likely assign an overall grade of B. Assigning a letter grade to a student’s written response is at the discretion of the teacher.

As you evaluate the written response, be sure to keep in mind:

- the unit goal and objectives
- the Expository Writing table provided in the teacher’s guide unit overview

Rubric	Grade	Details
Content	A	Stays focused on the topic of the assignment Fulfills all parts of the task
	B	Does not stay focused on the topic Fulfills some or most parts of the task
	C	Writes off topic Fulfills little to no parts of the task
Organization	A	Provides a main idea, specific details and conclusion, if needed Follows the organizing pattern described in the unit
	B	Provides a weak description of the main idea and has few details Follows the organizing pattern taught in the unit, but ideas wander a little, or unnecessary details are included
	C	Does not present a main idea or supporting details Lacks thought organization
Spelling	A	Makes 0-1 spelling errors
	B	Makes 1-2 spelling errors
	C	Makes more than 2 spelling errors

Grammar	A	Uses grammar rules correctly and makes 1 mistake
	B	Uses grammar rules mostly correctly and makes 2-4 mistakes
	C	Uses grammar rules incorrectly and makes more than 5 mistakes
Punctuation and Capitalization	A	Rarely makes mistakes
	B	Sometimes makes mistakes
	C	Frequently makes mistakes

[C Grade Answer]

My favrite food is seafood pesta. It is italian food. Seafood pesta is made with nodles. It taste yummy. I wants to eat pesta all the time.

Score Explanation: This response fulfills some of the requirements of the task by providing the food’s name, the country of origin, and limited detail about ingredients and taste. However, it receives a score of C because it contains spelling (*favrite, pesta, nodles, yumy*) errors, subject-verb agreement (*It taste; I wants*) errors, capitalization (*italy*), and very little detail about ingredients and taste. The response also lacks a title and a closing that shows the student’s willingness to try another food.

[B Grade Answer]

Yummy Pasta

My favorite food is meatball pasta. Meatball pasta is made with noodles tomato sauce and beef meatballs. The meatballs looks like a hamburger. The noodles taste soft and yummy. I want to try Mexico food one day.

Score Explanation: This response fulfills most of the requirements of the task by providing a title, the food’s name, and detail about ingredients and taste. There are some errors here: capitalization (*Hamburger*), agreement (*meatballs looks*), use of a proper noun as an adjective (*Mexico food*). Also, the country of origin (Italy) of the meatball pasta is not mentioned, and some of the details are not relevant—the appearance of the meatballs is not important; the taste of the meatballs should be mentioned instead (*The meatballs taste like a hamburger.*)

[A Grade Answer]

Yummy Angel Hair

My favorite food is angel hair pasta. It is an Italian food. In Italian, angel hair pasta is called capellini.
 Angel hair pasta is made with tomatoes, garlic, and olive oil. It tastes yummy with herbs and permesan cheese.
 Angel hair pasta has a healthy taste. It is not sweet or spicy. I want to try Greek food one day.

Score Explanation: This response satisfies all the requirements of the writing task. It provides an interesting title and plenty of detail about ingredients and taste. It even provides the name of the food in Italian, going beyond the requirements of the writing task. There is only one spelling error (*permesan*). There are no grammatical or punctuation errors.

➤ **LESSON GOAL** Students will be able to write a recipe for their favorite food.

OVERVIEW

This unit introduces students to vocabulary and grammar patterns used for writing food recipes. In the warm-up section, students preview and practice vocabulary and answer questions related to preparing and cooking food. Students learn to use verbs in the imperative form by matching them with pictures and writing sentences about making ice cream and sorbet. Students also learn how to use fractional numbers to describe quantities in a recipe. In the pre-writing section, students learn how to use the imperative form of verbs and fractions of numbers by completing fill-in-the-blank and matching exercises. Students practice their writing skills by identifying mistakes and rewriting sentences and by unscrambling sentences. In the drafting section, students brainstorm and write the key ingredients for the preparation of a sandwich, popcorn, and the food of their choice, then write the preparation instructions in a numbered sequence. In the revising and proofreading section, students are asked to pay particular attention to punctuation and spelling errors, the imperative verb form, and the use of fractional numbers.

TEACHING NOTES

This unit teaches students how to write instructions for the preparation of their favorite food. The teacher can use this unit to introduce common ingredients used in food preparation as well as verbs associated with the processing of these ingredients. For example, the teacher can tell the students that verbs such as *boil*, *fry*, and *bake* can be used to describe how potatoes can be cooked.

For further support, you may use the workbook or online materials to produce quizzes on the grammar, vocabulary, or writing that is covered in this unit.

Score Explanation: This response fulfills the requirements of the task by providing a title, ingredients, and limited detail about ingredients, and sequenced instructions. However, it receives a score of C because it contains spelling (*letuce, cuting, Mayo*) errors, no use of numerals (*two*) errors, capitalization (*Mayo; no capitalization at the beginning of instructions*), no imperative form of the verbs (*cutting; eating; put* incorrectly placed), and no detail about ingredients (for example, *slices* for bread, ham, and cheese; or the type of bread, ham, and cheese used, etc.) The first instruction is also out of sequence and two steps are missing (*Cut 2 slices of bread; Cut 2 slices of tomato*). The last instruction is not focused on the task.

The instructions are fully focused on the topic and logically organized.

➤ **LESSON GOAL** Students will be able to write about a special day.

OVERVIEW

This unit introduces students to vocabulary and grammar patterns used for writing about a special day such as a field trip. In the warm-up section, students preview and practice vocabulary and answer questions related to taking a trip. Students learn how to use sensory language to describe a past experience. In the pre-writing section, students learn how to use the simple past tense form of verbs and commas in numbers. Students practice their writing skills by correcting verb tense and comma mistakes and rewriting sentences. In the drafting section, students brainstorm sensory images and use them to write an email about a special day. In the revising and proofreading section, students are asked to pay particular attention to punctuation and spelling errors, the past tense form of verbs, and the use of commas.

TEACHING NOTES

This unit teaches students how to write about a past experience. The teacher can use this unit to introduce verbs, nouns, and adjectives that describe a sensory experience when paired, such as: *touch the cold water, hear the loud birds, etc.*

For further support, you may use the workbook or online materials to produce quizzes on the grammar, vocabulary, or writing that is covered in this unit.
